 Hospitals

HEDIS Care for Older Adults Measures CPT II Coding Reference

Using CPT category II codes on your encounter or claim submission will minimize medical record requests. Enter CPT II codes in the procedure code field with a \$0.00 billable charge amount.

Below are the category II codes for COA measures. CPT II codes are four digits followed by the letter "F."

| HEDIS Care for Older Adults Measure | CPT Category II | Codes CPT II Code Description |
|---|-------------------------|---|
| Functional Status Assessment At least one functional status assessment during the measurement year | 1170F | Functional status assessed |
| Pain Screening At least one pain screening or pain management plan during the measurement year | 1125F | Pain severity quantified, pain present |
| | 1126F | Pain severity quantified, no pain present |
| Medication Review & List At least one medication review conducted by a prescribing practitioner or clinical pharmacist during the measurement year and the presence of a medication list in the medical record, as documented through administrative data. NOTE: Common billable CPT codes associated are 90863, 99605, 99606. Only counts when both CPT II codes are submitted. The claim/ encounter for a member's medication review and medication list must be on the same date of service . | 1159F | Medication list documented in medical record |
| | 1160F | Review of all meds by prescriber or clinical pharmacists documented in med record |
| Advance Care Planning Discussion about preferences for resuscitation, life sustaining treatment and end of life care. | 1157F 1158F S0257 | The presence of an advance care plan in the medical record. |
