

Important Managed Care Plan Update!

AHF operates two distinct managed care plans in Florida:

PHP (HMO SNP) - Medicare

PHP is a Medicare Advantage special needs health plan with prescription drug coverage. The plan is open to Medicare beneficiaries who live in Duval, Broward or Miami-Dade County and have a prior HIV diagnosis in their medical record.

PHC Florida - Medicaid

PHC Florida is a HIV-specialty Medicaid Managed Medical Assistance (MMA) plan. The plan is available to Medicaid recipients who live in Broward, Miami-Dade or Monroe County and have a prior HIV diagnosis in their medical record.

Until further notice, PHC Florida is in business and is caring for its enrollees.

Note that PHP is not affected by AHF's contract with AHCA for PHC Florida.

Should you have any questions about PHP or PHC Florida, please call Provider Relations at (888) 456-4718, Monday through Friday, 8:00 a.m. to 8:00 p.m.
