# POSITIVE OUTLOOK

Health and Wellness Information for Members

Summer 2020

# What is coronavirus (COVID-19)?

Coronavirus (COVID-19) is a respiratory disease that has affected over 2 million people in the United States. There is an increase of COVID-19 cases in nursing homes and African-American and Latino communities. Currently, there is no vaccine to prevent the disease.

### How do you catch COVID-19?

COVID-19 is spread through person to person contact. This is when an infected person's droplets lands on your ear, nose, or mouth; such as by coughing or sneezing.

#### **COVID-19 and HIV**

Individuals who are older (60+) and/or have underlying medical conditions are at higher risk. Those with diabetes, heart/lung disease, high blood pressure, etc. are more likely to have higher affects due to the disease. Those with low CD4 cell counts and are not taking HIV treatments also have a higher chance of more serious symptoms of COVID-19.

#### How can you prevent COVID-19?

- Wear a face covering/mask when in public
- Stay home unless you need necessities
- Healthy eating (less take out and fast food)
- Avoid Close Contact in public (within 6 feet)
- Reduce stress
- · Avoid touching your eyes, ears, nose
- Get at least 8 hours of sleep
- Cover your mouth when you cough/sneeze
- Wash your hands often with soap for at least 20 seconds
  - Use 60% Alcohol sanitizer when soap and water are not available
  - Clean and disinfect home areas with household disinfectants

continued on page 2

# POSITIVE OUTLOOK Summer 2020

### continued from page 1

### What are the symptoms for COVID-19?

- Coughing
- Shortness of breath
- Fever/Chills
- Difficulty breathing
- Nausea
- Muscle/body pains
- Sneezing
- Congestion/runny nose
- Fatigue
- Loss of taste and smell
- Headaches

### Where can you get free testing for COVID-19?

- Mobile /Walk-up testing sites
- Select hospitals and clinics (call before visiting)
- Visit your local Department of Public health webpage or call for testing locations near you FL: https://floridadisaster.org/covid19/testing-sites/

### What to do if you test positive, experiencing symptoms, or been exposed to a person with COVID-19?

- Call your PCP
- Stay home and monitor your symptoms for at least 14 days
- Check your temperature
- Take over the counter medication for your symptoms
- Confine yourself to one room or area in home
  - If you live with others wear a mask and avoid contact
- Use separate bathroom or clean bathroom immediately after using
- Clean highly touched areas (door knobs, keyboards, kitchen cabinets, light fixtures, and phones)

# When should you seek medical care?

- Increased difficulty breathing Seizures
- Constant chest pain
- Bluish lips/face
- Severe dizziness
- Slurred speech
- Difficult to wake/stay awake

# Call before visiting a healthcare facility

# **Coping with COVID-19**

Coping with COVID-19 in general is strenuous on your mental health. It can cause feelings of depression, anxiety, and stress. During this time, it is important to be in control of your mental health. This can be done by:

- Acknowledge your feelings. Seek support if you are feeling anxious and depressed. Telehealth services for therapist are available to provide support through the pandemic. If you just want to speak to someone and remain anonymous here is a list of local warm lines you can call
- Florida: Central Florida crisis line 407-425-2624 is available 24/7
- Limiting your media intake. Reduce the amount of upsetting negative information and only staying informed with credible sources such as:
  - AHF website
  - Center for Disease Control (CDC)
  - Local Department of public health
- Sticking to regular routines. Waking up at certain, eating meals regularly, and going to bed at the same time each night.
- Stay connected with friends. Communicate through phone, text, or email.
- Engaging in summer activities. As states start to open public areas, you can find information on what is open around your area at:
  - Miami-Dade County (FL) https://www.miamidade.gov/global/initiatives/coronavirus/ emergency-orders/emergency-order-21-20.page
  - Broward County (FL) https://www.broward.org/CoronaVirus/Pages/Updates.aspx
  - Duval County (FL) https://www.coj.net/departments/fire-and-rescue/emergencypreparedness/preparedenss/covid-19-information

Although most states are conducting soft re-opens, check with your county website as some are not opening due to the rise in cases. Please continue to stay safe such as always wearing a mask in public and bringing sanitizer. Maintain a safe distance in public at all times, and do not participate in large group activities, and most importantly staying home if you are not feeling well.

# **Member Survey**

We are Listening! Positive Outlook Member Newsletter Survey

Your input helps PHP/PHC to continue improving services and providing access to health care that meets our members' needs. Please see the survey included with this newsletter. We would appreciate you filling it out and mailing it back to us. Your voice and input is very valuable to us. It helps us plan and develop programs and services that will help members, like you, lead a healthier and, hopefully, happier life!

## **Violence Prevention**

#### **Facts**

- ✓ 1.4 million people lose their lives to violence globally each year.
- ✓ That's over 3,800 people per day!
- ✓ Violence is not only physical; depression, chronic pain syndromes, and mental disorders are some of the long-term effects of violence.
- Safety is a human right, violence is preventable, and you can help to prevent violence.

### 4 Things You Can Do

- 1. Use common-sense tips to reduce your risk of being a crime victim:
  - ✓ Stay in well-lighted, busy areas.
  - ✓ Travel with a friend, if possible.
  - ✓ Walk in a confident, assured way.
  - ✓ Avoid known trouble spots.
- 2. Get to know your neighbors and agree to look out for each other.

- 3. Always use common courtesy, it helps ease tensions that can result in violence.
- 4. Find ways to settle arguments without violence:
  - Approach conflicts with a positive attitude; tolerate differences.
  - ✓ If you can, talk it out.
  - ✓ Look for peaceful solutions or compromises.
  - ✓ Walk away if the conflict is turning violent.
  - ✓ If you can't work it out, get help.

# POSITIVE OUTLOOK Summer 2020

# **Retinal Eye Exams for Diabetes**

Diabetes can harm your eyes. It can damage the small blood vessels in your retina, or the back of your eye. This condition is called diabetic retinopathy. Diabetes also increases your risk of glaucoma and other eye problems.

You may not know your eyes are harmed until the problem is very bad. Your doctor can catch problems early if you get regular eye exams. This is very important. The early stages of diabetic retinopathy may not cause changes in vision and you won't have symptoms. Only an eye exam can detect the problem. Take the steps to prevent the retinopathy from getting worse.

Even if the doctor who takes care of your diabetes checks your eyes, you need a retinal eye exam every year by an eye doctor who takes care of people with diabetes. An eye doctor has equipment that can check the back of your eye much better than your regular doctor can.

If you have eye problems because of diabetes, you will probably see your eye doctor more often. You may need special treatment to prevent your eye problems from getting worse.

### You may see two different types of eye doctors:

- •An optometrist is a health care provider trained to diagnose and treat problems with your vision. Many can do screening exams for damage from diabetes. Once you have eye disease caused by diabetes, you need to see an ophthalmologist.
- •An ophthalmologist is a medical doctor who is an eye specialist trained to diagnose and treat eye problems.

If you are diabetic and have any questions about your retinal eye exam please contact your PCP or RNCM.

We are currently offering \$20 to patients who complete a retinal eye exam AND \$50 to patients who complete a colonoscopy

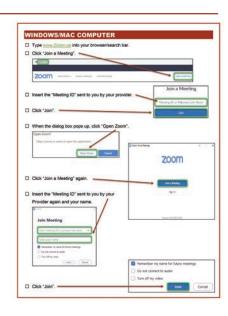

Don't wait, schedule your appointment ASAP

# **Telehealth - How To Using Facetime**

# **Using Zoom**

# **Summer Activities**

Summer activities are not canceled! Although we are experiencing a pandemic it is important to stay active to reduce uncertain health outcomes. This will also increase your mental/physical health, and help you enjoy life. Physical activities are scientifically proven to enhance your mood, stop depression, increase relaxation, and boost your energy. Here are some activities you can do while keeping your social distance.

# Outdoor Go have fun in the sun!

- Hiking and nature walks can reduce you stress levels, blood pressure, cholesterol, and body fat. This activity helps improve your mood, mental wellbeing, bone density, and weight balance.
  - Biking and roller skating are similar activities with the same health benefits
- Yoga, pilates, and other exercises may be conducted outdoors to get some fresh air or in the comfort of your home. There are also free beginner classes on the web, if you need help finding were to start.
- Fishing is a tranquil full body sport that can decrease your stress levels and provide a thrill in the challenge. You can invite a friend to a fishing dock and engage in the activity together while staying at a safe distance from each other.

 A Picnic is a nice way to enjoy the company of others as long as face mask are worn when engaging in conversation and all parties remain 6ft. away from each other

As more cities are opening it is important to conduct the recommended safety measures in order to prevent the spread of COVID-19. Always prioritize safety when conducting any activities with others.

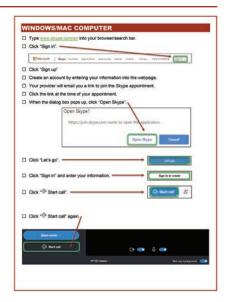

# Indoor Stay active while staying in!

- Make a simple recipe with a friend or loved one over a zoom call. You can create different cooking challenges within to spark up some competition.
- Take a virtual class with a professional and engage in socializing opportunities over zoom
  - Dance Art Culinary
- Join a virtual book/movie club or start your own book club with friends over a social media platform, zoom, skype, or FaceTime
- Plant an herb garden to enjoy with your delicious home cooked meals. Herbs are generally easy plants to keep alive and come with planting materials

# **Using Skype**

# **HEDIS**

## **Scoring Big for Your Health!**

Each year almost all health plans collect data to see if their members received the required preventative health care screenings and collects healthcare information. The screenings and information are may help your provider to diagnose a disease or condition early. This may also help you so that any disease or condition may be easier to treat and possibly cured. If you have not completed a screening based on the time table shown below, please do so today! These screening are covered by your health plan. We care about you and your health so we strive for 100%.

The following table also includes the 2020 rates based on 2019 data for the screening and information your provider tries to collect and how often:

Screening	Name of Screening Test	Gender and Age Range for Screening	How Often	Member Participation
Breast Cancer Screening	Mammography	Women 50 through 74 years of age	Every 2 Years	86.4%
Colo-Rectal Cancer Screening	Colonoscopy Or Cologuard	All members 50 through 75 years	Every 10 Years or Every 3 Years	69.5%
Controlling Blood Pressure	Blood Pressure	All members 18 years of age and older	Last One Taken in Calendar Year	72%
Medication Reconciliation after Discharge from Hospital	Notation of medications prescribed or not upon discharge	All members 66 years of age and older who had an acute or non-acute inpatient discharge	30 days after every hospital discharge	73%
Advance Care Directive	Advance directive, five wishes, living will or surrogate decision maker	All members 66 years of age and older	Every Year	91%
Pain Assessment	Standardized pain assessment tool	All members 66 years of age and older	Every Year	99.5%
Functional Status Assessment	Notation of Activities of Daily living (ADL)	All members 66 years of age and older	Every Year	99%
Medication Review	Medication review conducted by a prescribing practitioner.	All members 66 years of age and older	Every Year	98%
Below are screening only for members with a diagnosis of diabetes				
HgA1c Test	Glycated hemoglobin &glycosylated hemoglobin test	All members 18–75 years of age with diabetes	Every Year	96.4%
HgA1c less than 8	Glycated hemoglobin &glycosylated hemoglobin test	All members 18–75 years of age with diabetes	Every Year	71%
Nephropathy Screening	Microalbumin or urine test for protein	All members 18-75 years of age with diabetes	Every Year	98%
Retinal Eye Exam	Dilated eye exam	All members 18–75 years of age with diabetes	Every year or year prior if negative for retinopathy	59.6%

# Think About Joining a Trial!

New drug trials and treatment studies start all the time. These help create better treatment for all people living with HIV/AIDS. There are many types of clinical trials. One may be perfect for you. Your doctor may ask you to join a trial. Think about it!

For more info call (888) 456-4715

# **CAHPS 2020**

Thank you to those members who filed out the 2020 CAHPS Member Survey! The Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey is sent out to all our plan members every year. This survey was mailed out in February 2020 and March 2020, with follow up calls afterward.

This survey asks you as a member about your experience with our health providers (doctors, nurses, health plan and pharmacy program). AHF receives a summary of CHAPS survey results for 2020 measurement year. We would like to share the result with you to show that we hear your feedback and work toward on areas that need improvements..

### 2020 Survey Results (CAHPS)

Here is how you rated us as your health Plan for 2020.

2020 Medicaid Adult CAHPS Result			
Key CAHPS Questions	Medicare CAHPS Ratings		
Getting Needed Care	Average		
Getting Care and Appointments Quickly	Above Average		
Customer Service	Above Average		
How Well Doctors Communicate	Above Average		
Care Coordination	Average		
Getting Needed Prescription Drugs	Above Average		

# Based on our member responses, opportunities for improvement are:

- Getting Care Quickly getting appointments with specialists as soon as needed.
- Getting Care Quickly got check-up/routine care appointment as soon as needed.
- Care Coordination Personal doctor's office followed up to give test results

AHF Health Plans needs your help. AHF is a special needs plan or SNP. Getting high scores on this survey will help AHF continue and improve its work for you, our member. Please help us help you by completing the survey for coming year. Remember – the higher numbers in the survey means we are doing a good job. So, when you are asked to rate the health plan – 10 means best possible plan and 1 means poor. If you rate your doctor high, please consider rating the plan high since we arrange for your doctor to take care of you.

If there are additional comments you would like to share please contact Member Services at: (800) 263-0067.

# Prevention Points

At AIDS Healthcare Foundation, preventive care has always been an essential part of your health plan. Preventive services include immunizations and screenings to detect possible diseases and help you stay well. Prevention is about staying healthy and preventing or delaying disease. **Some key preventative screenings include:** 

- ✓ Blood pressure screening for all adults
- ✓ Cholesterol screening
- ✓ Colorectal cancer screening for adults over 50
- ✓ Type 2 diabetes screening for adults with high blood pressure
- ✓ Mammograms every one to two years for women over 40
- ✓ Cervical cancer screening for sexually active women
- ✓ Osteoporosis screening for women over 60, depending on risk factors
- ✓ Immunizations for children from birth to 18 years
- ✓ Obesity screening and counseling for children

# Special Needs

We know many of our members have special needs that make it hard to communicate with their healthcare team or Health Plan. Tell the doctor, nurse care manager or other member of your health home team if English is the not language you speak. We can call an interpreter who speaks your language. If you are deaf, hard-of-hearing or have other special needs, to help us communicate with you. For your health, it is vital that you and your doctor or healthcare team understand each other. This service is free to you.

ATTENTION: This information is available for free in other languages. Please contact our customer service number at (888) 456–4715, 8:00 am –8:00 pm, seven days a week. (TTY: 711)

ATENCIÓN: Si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al (888) 456-4715, 8:00 am -8:00 pm, los siete días de la semana. (TTY: 711)

# A Message from Your Health Plan

#### **Your Contact Information**

PHP FL cares about you and your health. We need to know if you moved or got a new phone number. Please call Member Services to update your record any time you make a change.

#### **Member Services**

Monday-Friday 8:00 am-8:00 pm • (888) 456-4715 TTY: 711

#### **Medication Therapy Management Program (MTMP)**

As part of PHP FL, you are enrolled in the MTMP. This Program helps people who take many prescribed meds. The Program lowers the chance of mistakes and reactions with your meds.

Your health care team will be in touch with you and your doctor. They will explain the drugs that you take. Your doctor will know of safety issues with your meds. Any other health issues will also be handled. Your RN Care Manager will contact you to make an action plan for your meds. An action plan with your nurse care manager will help with any problems you may have. The action plan will let you know just how and when to take your meds.

#### **Drug Safety**

Certain meds can be risky for older people. Find a list of high-risk meds and safe treatment options on our website under Prescription Medications.

PHP FL: www.php-fl.org/for-members/education

### **Compliance Hotline**

Help us look out for Medicare fraud and abuse. For example, if your Explanation of Benefits lists charges that are wrong, call Member Services. Call our Compliance Hotline if you suspect possible fraud or abuse.

**Compliance Hotline:** (800) AIDS-HIV • (800) 243-7448

# We want to hear from you!

The Client Advisory Committee is a great way to tell us what you think about your Health Plan! We welcome all health plan members and AHF Healthcare Center clients. You can share your questions, concerns and comments with our Health Plan leaders. We use your concerns to make your Plan better. Come to the next meeting to find out what your Health Plan can do for you!

#### Florida - Broward, Monroe and Dade Counties

6405 N Federal Hwy, Suite 205, Fort Lauderdale 33316

To RSVP, call: (954) 772-2411 option 3

Food and drinks will be served.

# Questions?
