New Gym Benefit Options!

**PHP is excited to announce the addition of
LA Fitness and Esporta Fitness gyms to our network!**

LA Fitness has more than 300 clubs across our coverage areas and continues to grow!

The LA Fitness/Esporta Fitness membership may be used at any of their facilities near you*. To find a gym closest to you, please go to the www.lafitness.com or www.esportafitness.com and click on "Locations."

**Please note: Membership excludes LA Fitness Signature Clubs.*

Remember, PHP members can choose a gym membership or over-the-counter (OTC) pharmacy merchandise up to \$200 per year through the plans' Health and Wellness Benefit.

To make a change to your Health and Wellness Benefits options or change your choice of gym or gym chain, please call (888) 456-4715.

We strongly encourage you to take advantage of these options and we thank you in advance for taking care of your health!

2022 Benefit Updates

Starting in 2022, there are some changes to PHP's costs and benefits which you should be aware of.

2022 Benefit Change

Outpatient Hospital Services

We cover medically-necessary services you get in the outpatient department of a hospital for diagnosis or treatment of an illness or injury.

Covered services include, but are not limited to:

- Services in an emergency department or outpatient clinics, such as observation services or outpatient surgery
- Laboratory and diagnostic tests billed by the hospital
- Mental health care, including care in a partial hospitalization program, if a doctor certifies that inpatient treatment would be required without it
- X-rays and other radiology services billed by the hospital
- Medical supplies such as splints and casts
- Certain drugs and biologicals that you can't give yourself

Referral required. Some tests and services require authorization. If diagnostic, lab, or imaging services are done at a hospital facility, you will be subject to an outpatient hospital copay.

You now pay \$100 copay per outpatient hospital service, i.e., outpatient surgery and surgery services and diagnostic radiology services, tests, and procedures done at a hospital facility. Some services require referral and authorization.

Virtual Five Wishes Classes

Advance Directives

You have the right to direct your care with Five Wishes –Advanced Directives

FIVE
WISHES®

MY WISH FOR:

The Person I Want to Make Care Decisions for Me When I Can't

The Kind of Medical Treatment I Want or Don't Want

How Comfortable I Want to Be

How I Want People to Treat Me

What I Want My Loved Ones to Know

print your name

birthdate

It is not easy to think about what will happen at the end of your life. The topic of death and dying is hard to face and harder to talk about with your loved ones. It helps when you have taken the time to make a plan.

Five Wishes is an advance directive or living will. An advance directive lets you plan your healthcare choices ahead of time. Your doctor and loved ones will know your choices if you are too sick to make them yourself. They will know just what types of treatment you want and how you wish to be cared for. A living will let you have more power and control over what happens to you when you are very sick.

We will be holding a virtual Five Wishes Class every month. This will help you complete this process and answer any questions about advance directives.

For more info call: 323-436-5027

5 Wishes 2022 (last Friday of every month except November and December)

18-Nov	12:30 PST/3:30 EST
16-Dec	12:30 PST/3:30 EST

Share Your Views: 2022 CAHPS

Soon, you will be receiving a survey called the Consumer Assessment of Healthcare Providers and Systems (CAHPS). This survey asks you how you feel about all the people who care about your health - your doctors, nurses, your health plan, and your medication program.

If you are happy with your healthcare services, please check the high score numbers. All of us want to give you the best care possible and to be scored a 10.

- Some of the questions will focus on
- How easy it was for you to make appointments and get care
 - How well you felt treated
 - Whether you felt listened to
 - How clearly doctors explained what you need to know

You are the only one who can tell us how we are doing. So, let us know – A 10 will tell us you are very happy with how we deliver your care. It is our focus to bring you the best care possible. Once you complete the survey, drop it in the mail. We will continue to work hard for you and thank you for your time!

Thank you!

March is National Colorectal Cancer Awareness Month

Did you know that screening is the # 1 way to prevent colorectal cancer?

It can also help detect cancer early when it's still highly treatable. Screening is important, safe, and saves lives! Reduce your risk of colorectal cancer by screening starting at age 45.

Colorectal cancer is a type of cancer that starts in your colon or your rectum. It starts out with polyps or small clumps of cells that form in the colon or rectum. This can develop into cancer. Luckily it can be prevented and even treated if caught early during screening. With your health plan, a screening is covered for free. There are several types of colorectal screenings:

Colonoscopies

Sigmoidoscopies

Fecal occult blood tests (FOBT) or fecal Immunochemical Test (FIT)

The type of screening will be decided between you and your provider, however, a colonoscopy is the most effective and accurate form of colorectal cancer screening.

The best way to reduce your risk of colorectal cancer is to get a screening with your provider. Some ways to reduce your risks outside of a doctor's office are:

Manage your diet:

- Eat your fruits and veggies. They provide minerals and antioxidants that can fight cancer cells.
- Limit red and processed meats. Too much fat in your diet can promote tumor growth.
- Be physically active and maintain a healthy weight.
- Limit your alcohol intake

You can also see the newsletter online @:

PHP Florida: www.php-fl.org/for-members/newsletters/

Some warning signs to watch out for are:

- A family history of colorectal cancer or any cancer
- A personal history of polyps or inflammatory bowel disease
- Changes in bowel habits, like diarrhea, constipation, and narrowing of your stool
- A feeling that your bowel doesn't empty completely
- Rectal bleeding and/or blood in the stool
- Unexplained weight loss or loss of appetite
- Bloating, cramps, or discomfort
- Nausea or vomiting

After the age of 75, screening may not be necessary. You only need about two colonoscopies in your lifetime so do one as soon as you can. Prevention is better than cure!

MOST COMMON COLORECTAL SCREENINGS			
	1. Colonoscopy	2. Flexible Sigmoidoscopy	3. Fecal Occult Blood Test (FOBT)/ Fecal Immunochemical Test (FIT)
What is it?	A flexible tube used to look at the colon and rectum	A flexible tube used to look at the colon and rectum	A stool sample is checked for blood caused by tumors or polyps
What does it look at?	Full colon	Part of colon	Stool only
How often do you have to do one?	Every 10 years	Every 5 - 10 years	Every 2 years
How long does it take?	30 min to 1 hour	10 - 20 minutes	3 days (one sample at home every day)

Language Line Services

Tell your doctor or nurse care manager if English is not the language you speak. We can also assist you if you are deaf or hard of hearing. We have Language Line Services to get you your healthcare in your language.

We can call an interpreter who speaks your language including American Sign Language. For your health, it is vital to make sure you and your doctor understand each other. This service is free to you.

For more information about language services, call Member Service at: (800) 263-0067.

Think About Joining a Trial!

New drug trials and treatment studies start all the time. These help create better treatment for all people living with HIV/AIDS. There are many types of clinical trials. One may be perfect for you. Your doctor may ask you to join a trial. Think about it!

For more info call (888) 456-4715

Liberty Dental is the new dental network in Florida!

Getting a regular dental checkup is important! They help keep your teeth and gums healthy. You should have a regular dental visit at least every 6 months or as recommended by your dental professional.

PHP has contracted with Liberty Dental to be the plan's dental provider through its network of dentists. There are now even more dentists available to you. Please check the PHP Provider Directory for a complete list of Liberty Dental providers online at: www.php-fl.org/provider-find

COVID Update Message

The best way to protect yourself from COVID and its variants is by getting the:

COVID-19 Vaccines

- COVID-19 vaccines are safe and effective
- Everyone 5 years and older is now eligible to get a free COVID-19 vaccination
- Booster shots are available to everyone ages 12 years and older who is vaccinated

Vaccines can prevent serious illness and hospitalization

Masks

- Masking is critical for preventing the spread of COVID-19.
- Wear a mask in indoor public settings
- Wear a mask with the best fit, protection, and comfort for you
- Surgical masks, respirator masks (KN95, N95), multi-layer masks, and double masks can help to provide extra protection

Facts

- COVID-19 is still a major public health risk
- Some racial and ethnic minority groups are disproportionately affected by COVID-19
- Symptoms of this virus can vary from being similar to the cold and the flu, to very mild, and sometimes no symptoms at all (asymptomatic)
- People who are immunocompromised are at higher risks to COVID-19

Testing is the best way to know your COVID status and prevent the spread to others. There are now more options to get an at-home COVID-19 test.

Order free tests at COVIDtests.gov. Free tests are also available through your local health departments.

Buy tests online or in pharmacies and retail stores. PHP will reimburse you the cost of purchasing self-tests.

If you're not able to get a self-test when you need it, you might also visit a community testing site, or call your local health department for more options.

Prevention Points

At AIDS Healthcare Foundation, preventive care has always been an essential part of your health plan. Preventive services include immunizations and screenings to detect possible diseases and help you stay well. Prevention is about staying healthy and preventing or delaying disease. **Some key preventative screenings include:**

- ✓ Blood pressure screening for all adults
- ✓ Cholesterol screening
- ✓ Colorectal cancer screening for adults over 45
- ✓ Type 2 diabetes screening for adults with high blood pressure
- ✓ Mammograms every one to two years for women over 40
- ✓ Cervical cancer screening for sexually active women
- ✓ Osteoporosis screening for women over 60, depending on risk factors
- ✓ Immunizations for children from birth to 18 years
- ✓ Obesity screening and counseling for children

Special Needs

We know many of our members have special needs that make it hard to communicate with their healthcare team or Health Plan. Tell the doctor, nurse care manager or other member of your health home team if English is the not language you speak. We can call an interpreter who speaks your language. If you are deaf, hard-of-hearing or have other special needs, we can arrange a service to help us communicate with you. For your health, it is vital that you and your doctor or healthcare team understand each other. This service is free to you.

ATTENTION: This information is available for free in other languages. Please contact our customer service number at (888) 456-4715, 8:00 am -8:00 pm, seven days a week. (TTY: 711)

ATENCIÓN: Si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al (888) 456-4715, 8:00 am -8:00 pm, los siete días de la semana. (TTY: 711)

A Message from Your Health Plan

Your Contact Information

PHP cares about you and your health. We need to know if you moved or got a new phone number. Please call Member Services to update your record any time you make a change.

Member Services

Monday-Friday 8:00 am-8:00 pm • (888) 456-4715 TTY: 711

Medication Therapy Management Program (MTMP)

As part of PHP, you are enrolled in the MTMP. This Program helps people who take many prescribed meds. The Program lowers the chance of mistakes and reactions with your meds.

Your health care team will be in touch with you and your doctor. They will explain the drugs that you take. Your doctor will know of safety issues with your meds. Any other health issues will also be handled. Your RN Care Manager will contact you to make an action plan for your meds. An action plan with your nurse care manager will help with any problems you may have. The action plan will let you know just how and when to take your meds.

Drug Safety

Certain meds can be risky for older people. Find a list of high-risk meds and safe treatment options on our website under Prescription Medications.

PHP FL: www.php-fl.org/for-members/education

Compliance Hotline

Help us look out for Medicare fraud and abuse. For example, if your Explanation of Benefits lists charges that are wrong, call Member Services. Call our Compliance Hotline if you suspect possible fraud or abuse.

Compliance Hotline: (800) AIDS-HIV • (800) 243-7448

We want to hear from you!

The Client Advisory Committee is a great way to tell us what you think about your Health Plan! We welcome all health plan members and AHF Healthcare Center clients. You can share your questions, concerns and comments with our Health Plan leaders. We use your concerns to make your Plan better. Come to the next meeting to find out what your Health Plan can do for you!

Florida - Broward, Monroe and Dade Counties

6405 N Federal Hwy, Suite 205, Fort Lauderdale 33316

To RSVP, call: **(954) 772-2411 option 3**

Food and drinks will be served.
